  - Vendor Balance
  - Profit & Loss 26% below budget (Ken)
  - Transactions
  - Balance Sheet
6. Mill St.
7. Superintendent's Report

Wells -Denis Maher will be coming to redevelop wells 1 & 2. Will do a pump test on well 4 to see if it needs to be redeveloped or wait until next year. Well 3 is still doing great at this point will continue to water.

Filter plant – The plant is doing great. Getting longer run times out of the filters and better water. A couple things contribute to this, one is raw water coming into the plant is better right now due to spring time and the rain we have had and second is the employees continue to do more testing and chemical adjustments. Our water is very work intensive.

Infrastructure – N. Main St opening bid was on June 5<sup>th</sup>. Prices are coming in high due to there being so much work out there and not enough workers.

The Town of Orono has been having some drainage work done so we have been working with that contractor to get by our water lines

without damage. Barney Silver is doing the work and has been very good to work with.

Flushing – Flushing is done. Went very wee and the guys said water overall looked great.

Greg- has gone and got his Class 4 Treatment and Class 3 Distribution.
